**BIMS International Journal of Social Science Research
(ISSN: 2455 – 4839)**

BIMS International Journal of Social Sciences and Research (IJSSR, ISSN – 2455 4839) was initiated to encourage the research aspirants to publish their research articles twice in a year, during the months of July and February. The procedure to publish the research article is as given below:

1. Call for the papers – The authors must send their research articles to the email id mentioned below before 10th of January (For Issue 1) and 10th of June (For Issue 2).
2. All the papers will have to undergo a plagiarism test with the similarity index of less than 25%.
3. Only those papers which clears the plagiarism test and is approved by the review committee will be published in the journal.
4. Authors whose papers are selected by the review committee will receive an email which consists of payment details (Publication fee is ₹500) and copyright transfer agreement.
5. Once the payment and duly signed copyright agreement forms are received, the papers will be published, and will be notified to the author.
6. Soon after the e-journal is released, a softcopy of the journal will be sent over the email along with e-certificate.

Our editorial team will continuously remain in touch with the authors to guide them throughout the process.

Please note that the author should bear all the incidental expenses (Printing and postage) in case he/she needs the hard copy of the journal.

AUTHOR'S GUIDELINES

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all co-authors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; that the manuscript will not be published elsewhere in any language without the consent of the copyright holders; that written permission of the copyright holder is obtained by the authors for material used from other copyrighted sources; and that any costs associated with obtaining this permission are the authors' responsibility.

Preparation of Manuscripts

Authors are strongly encouraged to submit manuscripts online. This will allow even quicker and more efficient processing of your manuscript.

Manuscripts should be typed or prepared on a **Microsoft Word**, with **single line spacing**, on **A4 sheet layout**. The text should be of **Times New Roman with the font size 12**. All pages should be numbered consecutively and the paragraphs should be align justified. Tables and figures should be numbered serially, and legends to illustrations should be prepared along with the respective table/figure. All tables and figures must be referred to in the manuscript.

Title Page: The following elements must be included:

- Title of the article;
- Name(s) and initial(s) of author(s), preferably with first names spelled out;
- Affiliation(s) of author(s);
- Footnotes to the contribution title;
- Name, address, telephone and fax numbers, and e-mail address of the corresponding author.

Abstract: Each article is to be preceded by a succinct abstract, of up to 250 words, that highlights the objectives, methods, results, and conclusions of the paper.

Key Words: To identify the subjects under which the article may be indexed, 4-6 key words should be provided.

References/Literature review: In the text, references to the literature should be by author and year; where there are two authors, both should be named; with three or more only the first author's name plus "et al." need be given. The list at the end of the paper should include only works mentioned in the text and should be arranged alphabetically by name of first author. References should be cited as follows:

- **Journal papers** -- name(s) and initial(s) of author(s), year in brackets, full title, name of the journal as abbreviated in Chemical Abstracts, volume number, first and last page numbers.
- **Books** -- name(s) of author(s), year in brackets, full title, edition, publishers, place of publication, page number:

Footnotes: Those in the text should be numbered consecutively. Footnotes to the title or authors of the article are marked by asterisks and placed on the title page.

Sequences: Sequences that are used merely as data points in statistical calculations or graphs should, if possible, be referred to by their accession numbers only. Authors should be quoted by name when their sequences are discussed individually or presented in alignments.

Illustrations: These should be suitable for reproduction, and should clarify or shorten the text. Information provided in figure legends should not be repeated in the text. Figures and graphs should always be mentioned in the text and numbered with Arabic numerals. Preferred file formats include .jpg and .jpeg; please see Manuscript Central for more details.

Mathematical Equations: These should be clearly prepared, and annotated if necessary. Primes and dots must be called to the attention of the typesetter. Differentiate legibly between number 1, capital letter I, and lower case letter l. Use fractional exponents instead of root signs and the solidus (/) for fractions wherever their use will save vertical space. Use exp () notation when the exponent is sizable. All equations must be numbered sequentially, on the right-hand side of the column, in parenthetical Arabic numerals.

Abbreviations, Symbols, Units, etc.: Acronyms and symbols must be defined at first mention, in titles, abstracts, as well as within the text. For nomenclature, abbreviations, symbols, and units, authors should follow internationally accepted rules.
